OUR WORLD IS FACING A CLIMATE EMERGENCY

Scientists tell us that we need to make changes at an unprecedented speed and scale. Extinction Rebellion has brought the climate crisis into the heart of our politics and media. But make no mistake, we are only just getting started.

What is Christian Climate Action?

Christian Climate Action has played a core role in Extinction Rebellion – both on the front line and behind the scenes. We believe that Christian faith is participatory and that the world has an increasing role for the values of sacrifice, repentance, forgiveness and hope.

We need you: The question is no longer do we believe in climate change. The time has come to decide whether we care enough to do something meaningful about it. The rebellion needs people on the front line, but also creators, administrators, organisers and energisers. God has blessed us all with different skills – if you want to use yours to stand up for life, contact us now.

“Christians are called by God to show to the world what the divine image looks like... Christian Climate Action seeks to respond to that summons. In the face of impending environmental crisis, we need to encourage one another to grow more fully into the joyful responsibility we are made for.”

— The former Archbishop of Canterbury, Rowan Williams
